August 21, 2009

To All Donors,

This is a campaign to raise funds for the nonprofit organization, 501seed, Inc. This fund raiser will help promote minority women in entrepreneurship, with seed capital, encourage higher education with scholarships, and bring health care awareness to the disadvantage with prevention, and education for the elderly in our community. The passion, and mission of this campaign will touch us all, to give back to the community, in a compassionate, and proactive way. With your help, we can help others.

The fund raisers will receive a pair of sneakers for donating for this cause. The sneakers come in all white, all red, and all green at the cost of \$10.00 a pair, in half sizes up to size 10.5. These sneakers are a symbol of walking forward in our community, and becoming self sufficient in owning our business, and going on to higher education, and becoming proactive in health care awareness, and help those less fortunate in our community such as the elderly. Sometimes there are those who just need a little help to jump start their business with a small seed, or need to go to college, and need scholarship help, or a elderly person looking for health care awareness and prevention. We all know someone in one of these scenarios, So get your sneakers and help those less fortunate to walk forward with pride!

Thank you for your support!

Vicki Thomas, Executive Director, 501seed, Inc.
